

Government of the District of Columbia

ADVISORY NEIGHBORHOOD COMMISSION 5C

RESOLUTION

Resolved, the Advisory Neighborhood Commission of 5C has the authority to exercise great weight on the decisions of government agencies, specifically with regards to Parks & Recreation as well as traffic laws and regulations; and therefore shall inform the District of Columbia Department of Transportation to provide the necessary resources to conduct a detailed transit study for the New York Ave. Corridor and the Adjacent communities.

Whereas, the current Multimodal plan does not provide comprehensive data to accurately project transportation needs for the current ongoing and upcoming development of the aforementioned communities which is home to nearly 20,000 residents and growing.

Whereas, This Commission is requesting DDOT sponsored community engagement sessions, which are developed and hosted by DDOT.

Whereas, This Commission requests updates or amendments to the current Multimodal Long-range Transportation Plan to provide inclusion in the following modal areas:

1. WMATA Priority Corridor Network
2. Planned Major Transit network
3. Planned High-Frequency Local & Regional Bus Corridors
4. Eastern Planning Area Transit network
5. Planned High-Capacity Surface Transit Network
6. Planned Transit Element Accessibility
7. Inclusion in Transit Infrastructure Priorities
8. To reassess the long range usage of all Metrobus only areas and to consider High frequency Bus Corridors service and higher for service.
9. Assess Capital Bike Share potential
10. Pedestrian & Vehicle Infrastructure

Whereas, potential proposals to address the omission of transit along New York Ave. have been sent to DDOT regarding some of the planned areas and we are requesting that consideration be given to aforementioned communities prior to exhausting funds dedicated to the Eastern Planning Area Transit Network due to the exclusion of New York Ave.

Whereas, once the transit study has been developed, this commission is requesting retroactive inclusion in the two year action plan and for DDOT to fairly reassess funds to include the transit study area in the two year plan

Therefore, ANC 5C shall petition the Office of the Mayor, the District of Columbia Department of Transportation, the United States Department of Transportation, Ward 5 City Council, The City Council

Therefore, ANC 5C shall petition the Office of the Mayor, the District of Columbia Department of Transportation, the United States Department of Transportation, Ward 5 City Council, The City Council of the District of Columbia support the DDOT sponsored and hosted transit study for communities adjacent to New York Ave.

This resolution was presented and approved at a properly noticed meeting of the 5C Commission on the date of 2/17/16 at which a majority of 6 members voted.
